## EDUCATION

### Computer Science Engineering KLN College of Engineering

📅 2018 - 2022 📍 Tamil Nadu, India

GPA

8.4 / 10

## EXPERIENCE

### Full Stack Developer - Intern

Defy

📅 12/2021-02/2022 📍 Bangalore, India

Defy is India's first social crypto exchange with a motive to build fair, efficient and transparent system to exchange finances and navigate through the world of cryptocurrency in a seamless manner.

- Developed and maintained Defy's admin portal. Developed APIs using Java -Dropwizard and populated the data in frontend using React JS.
- The admin portal had features to display users' information, their crypto and fiat transactions and the option to view users' KYC documents.
- The admin portal acted as a CRM for the operations team and enabled them to precisely track users' journey.

### Technical Content Writer - Intern

Esthon Media pvt.ltd

📅 12/2020 - 09/2021 📍 Bangalore, India

Esthon Media is a PR agency that specializes in promoting businesses mainly in the field of IoT and SaaS.

- Authored numerous articles on IoT, SaaS, Cloud Computing, Blockchain and Cryptocurrencies.
- Contributed to a research article: "Impact of Covid in different IoT Industries".

## PROJECTS

### Kryptomania - React & Node

📅 11/2021 - 12/2021

Live demo: <https://vasu-kryptomania.herokuapp.com/>

Kryptomania is a Ticker application that shows the current market value of coins with the percentage variation.

- The coins are collectively arranged in such a way that the users can identify trending coins, the ones that are ideal for new investors and the non-trending coins.
- <https://github.com/vasupradharamac/Kryptomania>

### Tweetie - Python (Django)

📅 09/2021 - 12/2021

Live demo: <https://vasu-tweetie.herokuapp.com/>

A social networking app designed around Twitter using Django.

- Tweetie comprises of features such as following and unfollowing users, creating and updating tweets, commenting on users' posts and deleting tweets.
- <https://github.com/vasupradharamac/Tweetie>

### Employee Directory - Node

📅 01/2022

Live demo: <https://vasu-employee-directory.herokuapp.com/>

Employee Directory is an application to store an organisation's employee records.

- The app provides features like navigating to a particular employee's information and the option to react out to them via call or email.
- [https://github.com/vasupradharamac/Employee\\_directory](https://github.com/vasupradharamac/Employee_directory)

### Food App - React

📅 10/2021

Live demo: <https://vasu-food-search-application.netlify.app/>

Food App enables users to find recipes across various cuisines around the globe.
